## PROFESSIONAL SUMMARY

Senior Front-End and Mobile Developer with 8+ years of experience building scalable, responsive web applications and cross-platform hybrid mobile apps using Angular, React.js, Next.js, Ionic, Capacitor, and TypeScript. Skilled in RxJS, NgRx, Angular Signals, Redux Toolkit, reusable component architecture, REST and GraphQL API integration, authentication, role-based access control (RBAC), and frontend performance optimization. Delivered enterprise applications across healthcare, eCommerce, survey analytics, and digital content domains for Android, iOS, and web. Led teams of 4–6 developers in Agile/Scrum environments and mentored engineers on frontend best practices.

## TECHNICAL SKILLS

**Frontend:** Angular (2+ to latest), Angular Material, React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, SCSS

**Angular Ecosystem:** Angular Signals, RxJS, NgRx, Reactive Forms, Standalone Components, Angular CLI, Dependency Injection, Route Guards, HTTP Interceptors, Lazy Loading, Change Detection

**React Ecosystem:** Next.js (App Router), Redux Toolkit, React Query, Zustand, Context API, React Hooks, Server-Side Rendering (SSR), Static Site Generation (SSG)

**Mobile (Hybrid):** Ionic Framework, Capacitor, Apache Cordova, Android, iOS, Native Plugins, Push Notifications, Progressive Web Apps (PWA)

**UI & Styling:** Tailwind CSS, Angular Material, Material UI, Bootstrap, ShadCN/UI, Styled Components, CSS Modules, Responsive Design, Accessibility (WCAG)

**API & Data:** RESTful APIs, GraphQL, Apollo Client, WebSockets, JWT Authentication, OAuth, Node.js

**Testing:** Jest, Jasmine, Karma, Cypress, Playwright, Unit and End-to-End Testing

**Tools & DevOps:** Git, GitHub Actions, CI/CD, Webpack, Vite, Turborepo, Docker, Vercel, AWS, Jira

**Practices:** Agile/Scrum, Kanban, Code Reviews, Modular Architecture, Micro-Frontends, Monorepos, Web Vitals, Code Splitting

## PROFESSIONAL EXPERIENCE

**Senior Software Engineer** **May 2024 – Present**

*Nat IT Services Pvt. Ltd.* *Hyderabad, India*

- Developed enterprise web application modules using Angular, React.js, Next.js, TypeScript, and Tailwind CSS for business-critical workflows
- Built reusable UI component libraries, responsive layouts, and form-driven modules with Reactive Forms and custom validators
- Integrated REST APIs with centralized error handling, HTTP interceptors, and loading states to improve reliability of data flows
- Improved page load performance through lazy loading, code splitting, SSR/SSG in Next.js, and OnPush change detection
- Collaborated with backend, QA, and product teams in Agile sprints covering estimation, code reviews, testing, and releases

**Senior Software Engineer** **Apr 2023 – Nov 2023**

*HTC Global Services* *Chennai, India*

- Developed HCP Asia, a healthcare project management platform, using Angular, TypeScript, RxJS, and NgRx
- Built role-based dashboards for 5 user roles: Admin, Project Manager, Recruiter, Translator, and External Project Manager
- Implemented Reactive Forms with custom validations for project creation, resource management, and workflow approvals
- Implemented authentication, authorization, and RBAC using route guards and JWT interceptors across application modules
- Managed application state and asynchronous data streams with NgRx store, effects, and RxJS operators

**Senior Software Developer** **Nov 2021 – Apr 2023**

*SLK Software* *Bangalore, India*

- Developed responsive enterprise web applications using Angular, React.js, Next.js, TypeScript, HTML5, and CSS3
- Built reusable UI components and business modules to standardize enterprise workflows across applications
- Implemented authentication, authorization, RBAC, and REST API integrations for secure user access
- Participated in frontend architecture discussions, code reviews, sprint planning, and production deployments

**Mobile Application Developer** **Aug 2020 – Nov 2021**
*Soniks Services* *Hyderabad, India*

- Developed cross-platform hybrid mobile applications for Android and iOS using Ionic, Angular, Capacitor, and Cordova
- Built reusable mobile UI components and responsive screens following platform design guidelines
- Integrated native device features through Capacitor and Cordova plugins, including camera, storage, and push notifications
- Implemented secure authentication workflows, REST API integration, and form validations
- Improved app stability and performance across Android and iOS through debugging, profiling, and testing
- Built and published app releases to Google Play Store and Apple App Store

**Junior Software Developer** **May 2019 – Apr 2020**
*Versatile Commerce* *Hyderabad, India*

- Developed eCommerce web application features using Angular, TypeScript, HTML5, CSS3, and Bootstrap
- Built product catalog, shopping cart, checkout, and user account management modules
- Integrated REST APIs for product management, order processing, authentication, and payment workflows
- Implemented responsive, mobile-first interfaces and customer-facing form validations

**Mobile Developer** **Sep 2017 – May 2019**
*2K Services* *Chennai, India*

- Developed hybrid mobile applications using Ionic, Angular, TypeScript, and Apache Cordova for Android and iOS
- Built reusable UI components and responsive mobile interfaces for business workflows
- Integrated backend APIs, implemented frontend validations, and resolved defects to improve usability

## PROJECTS

**The Camp App – Camp Registration and Administration** | *Angular, TypeScript, REST APIs*

- Built camp registration, enrolment, application tracking, and child profile modules for parents and administrators
- Developed medical information forms, document upload, notifications, and admin reporting dashboards with RBAC

**Instant Polls – Survey and Analytics Platform** | *React.js, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, Chart.js*

- Developed real-time polling interfaces and analytics dashboards with interactive Chart.js visualizations
- Implemented AI-assisted poll creation, PDF report generation, OTP, and two-factor authentication (2FA)

**Missions Connect – Digital Content and Subscription Platform** | *React.js, Next.js, TypeScript, Node.js, IPFS (Pinata), Blockchain*

- Developed community, creator, content, and subscription management modules with audio, video, and image uploads
- Integrated IPFS storage and blockchain certification via smart contract events, plus certificate viewer and revenue distribution modules

## KEY ACHIEVEMENTS

- Improved application performance by 30% through lazy loading, code splitting, and frontend rendering optimization
- Led a team of 4–6 developers delivering web and mobile applications using Angular, React.js, Next.js, and Ionic
- Mentored 3+ developers on Angular, React.js, TypeScript, state management, and frontend best practices

## EDUCATION

**Bachelor of Science in Computer Science** **2015**
*Vikrama Simhapuri University, Nellore, India*
